FastFind™

Carousels designed to maximize medication storage, improve dispensing speed and provide dependable inventory management

The FastFind carousel, powered by RxWorks Pro, is a superior solution for pharmacies needing to maximize medication storage and dispensing speed. It uses a pharmacy's available vertical height to increase the number of items stored in the same footprint by up to 60%.

Inventory Management with RxWorks Pro

The system is powered by RxWorks Pro software. Pharmacies can start by managing only the inventory in the carousel and expand the system over time to provide full, pharmacy-wide inventory management to support even the most complex health system.

Carousel Features

The FastFind carousel allows technicians to retrieve medications from a single location, while the ergonomic design minimizes bending and reaching by picking from waist height.

- Space for more than 2,000 items
- Support for HL7 and TCP/IP interfaces
- Stainless-steel work surface
- Pick-to-light technology
- Ergonomically-designed work height
- Bulk products are supported without the intermediate shelf
- Fingerprint or password sign-on
- Barcode scanning
- Optional label printing
- Robust design allows for storage of IV fluids

- Ease of reconfiguration of interior shelving components to fit changes in inventory requirements over the life of the carousel.
- Barcode scanning, pick-to-light technology and a drug image database enhance the safety of dispensing operations.
- Cabinet replenishment and cart fill are expedited through batch processing and grouping by shelves at carousels.
- Order processing enables STAT orders to be quickly identified and prioritized to optimize turn-around times.
- A repeatable, dependable process is created that enhances the pharmacy's service level.
- Optimization of medication placement helps to streamline workflow.

ARxIUM
Innovative Pharmacy Solutions

Our FastFind carousel enables the pharmacy to store significantly more items than normally possible with standard pharmacy shelving. The FastFind is flexible and scalable, with a variety of options available to meet your unique dispensing and inventory management needs.

Technical Specifications

- **Power** - 208V, 3-Phase or 230V, 2-Phase, 20 amp
