RxWorks Pro - Inventory Made Easy.

With RxWorks Pro, you gain complete control of and visibility into your inventory, right out of the gate. Designed with the business of pharmacy in mind, RxWorks Pro makes managing your inventory easy.

Reduce Inventory Costs

- Less stock-outs and expired medications
- Reduced purchasing and receiving time
- Lower overall carrying costs due to increased inventory turns
- Controls inventory in all areas of pharmacy, including automation, stock rooms and manual pick shelves
- Scalable to manage single or multiple hospitals and/or clinics from a single location

"Since going live with RxWorks Pro, our overall departmental turns have gone from 11 to 17!"- Director of Pharmacy

Mobile Functionality: RxWorks Pro Mobile

- Connects users to the items they are picking
- Easy scan-in/scan-out workflow
- Real-time decrementing
- Intuitive put-away, pick and cycle count

"The mobile solution has helped us move away from error-prone paper processes. We have been able to streamline our picking operations and introduce barcoding technology in places that traditionally didn't have a solution."- Pharmacy Manager

Customizable Dashboards, Status Boards & Reporting

- Provide actionable insights to evaluate the ongoing effectiveness of your pharmacy, in real time
- Direct picking activity to efficiently minimize delays
- Monitor medication orders throughout the fulfillment process
- Full staff visibility into what needs to be picked and when
- Create your own reports easily with the integrated reporting tool

"ARxIUM offers fantastic options for reporting. They have canned reports that include common reports we need all the time. We also have a library with a set number of templates that we can adjust and modify. There is also a report viewer that lets us explore and build our own reports. We can make reports that pull from any field in the system or drug library."- Pharmacy Manager

SiteLINK - Clinic/Satellite Ordering

- RxWorks Pro web-based medication ordering tool
- Eliminate errors in the ordering process
- Capture real-time, interdepartmental billing transactions
- Orders routed for internal fulfillment or to the vendor

"RxWorks Pro works really well for our clinic locations' requisitioning process. We set up our templates so that clinics can only order items that are set to the template. That way, we can ensure that all the clinics are following our formulary. That is really nice!"- Pharmacy Manager

Pharmacy Financials Impact

- System tracks unique values for each product price type (340B/WAC/GPO)
- Interfacing and tracking with hospitals' financial systems
- Real-time inventory valuation of any managed location
- Complete record of all transactions
- Automated electronic price and PO updates

"With RxWorks Pro, we've gained the ability to easily perform real-time analytics of the medication values both inside the pharmacy as well as up on the floor, in the dispensing cabinets."- Pharmacy Director
